Just think, Ready-to-eat Authentic African Food retailing in a major supermarket? How often do you see authentic African Food retailing in a major supermarket? Sheba Foods has now made this a reality. **SHEBA FOODS IS THE FIRST AND ONLY MANUFACTURER OF FRESH FROZEN READY TO EAT AFRICAN CUISINE.** This is unprecedented!

I am Kunmi Oluleye, President of Sheba Foods, a Woman Business Enterprises (WBE certified) company. Sheba Foods' **ALL NATURAL AND HAVE NO PRESERVATIVES** are processed in a USDA Plant in Georgia.

We started with 5 Ingles Supermarkets in November 2003, then debuted in 29 Wal-Mart Supercenters Frozen section, then approved for 45 Wal-Mart Deli featuring our signature Jollof rice. The rest is history. The plan was to start with West African food items, now we are gradually adding other African cuisines through the **Flavors of Africa Food Tradeshow**. There will be sequential in-store rollout to every state in the union by Summer of 2010.

### Sheba Foods debuts at Ingles

Stone Mountain-based Sheba Foods has found its way into Ingles supermarkets.

Owner Kunmi Oluleye has launched her frozen-food business inside five Ingles stores.

Her gourmet items are recipes from her native Nigeria.

Ingles is Oluleye's first big grocery customer, but she said she is talking to Publix, Kroger and Wal-Mart Supercenters.

Stores that carry her items — Jollof rice, Melon Gourmet, Sheba Stew, and okra and jute soup — include Ingles on Rockbridge Road and Annistown Road in Stone Mountain, Wesley Chapel Road in Decatur, Old National Highway in Fairburn and Powder Springs Road in Marietta.

Sheba Foods makes its products at a facility in Dallas, Ga., and Ingles helped determine the right sizes for freezer cases.

"I haven't spent money on marketing," Oluleye said. "But for me sales are going wonderfully."
